Multifunctional Grooming Kit

This 5 in 1 multi-functional electric shaver is suitable for man, including a body shaver, a nose trimmer, a sideburn trimmer and facial cleaning brush. It can satisfy all facial grooming and cleaning needs, enjoying hair-free smooth skin without irritation.

Rotary shaver

Rotary shaving can follow every contour of your face and neck and body. Removing extra hairs with high precision.

Sideburn trimmer

Sideburn trimmer is ideal for trimming sideburns, mustaches and whole body, showing smooth skin. It is suit for long hair.

Nose trimmer

The trimmer quickly trims unwanted nose and ear hair.

Facial Cleaning Brush

The facial cleaning brush can scrub away sweat, dirt, and oil, helps deeply and thoroughly cleaning facial pores in a gentler and hygienic way, reducing stress and skin irritation.

How to use

Turn on the shaver and start to using it. After finished shaving, move the shaving head to the body in a circular movement. Pull out the head and then replace the another head, pull the original head down and align the new head, which can change the head attachments in a more convenient and quicker way.

USB charging

Press the switch and remove the other power. It needs charging for about 120 minutes if the charging indicator is lighting.

Maintenance

For best shaving performance, please clean the shaver blade each time you use it with water. You should often clean it to ensure better shaving effect. After washing, please make it dry.

Turn off the shaver. Press the release button to open the shaving unit. Close the shaving unit and shake off water. Re-open the shaving unit and let it dry completely.
