USE CONDITION

We suggest that user is better wear the mask in temperature 18<45C
It will be a little fog if the temperature is more than 40C, if the fogging
is heavy, please make sure the mask is wore properly.

WARNING

Be recommended using by the competent swimmer.
Don't snorkel alone, always have a companion.
Don't snorkel in high or rapid wave.
This is for snorkeling only.
Practice in the shallow beach or swimming pool.
Don't use for the baby or kid less than 72months.
It will lead choking.
It is no protection in the accident.

MAINTENANCE

Clean mask with fresh water after use every time.
Put the mask in warm fresh water for some minutes after sea snorkel
to avoid corrosion.
Avoid to use soap or detergents to make visibility well.
Keep dry after use.
Don't place the mask under the sunlight directly.
Don't use towel to clean the face lens, glasses cloth is better.
Don't place face lens touch the hard surface.

TIPS

Make sure the O'ring is on the groove of mask connection part. It
will avoid leaking problem.
Please adjust elastic band well to avoid no leaking. Especially chin
and forehead part.
